Swimbait BBZ-1 Shad

Blue Back Herring

Swimbait BBZ-1 Shad:

The Bill Siemantel Signature BBZ-1 Shad is the most realistic swimbait on the market today. The BBZ-1 Shad will be available in a floating, a slowing sinking, and a fast sinking swimbait. The BBZ-1 Shad has the best action, best colors, and best quality of any other swimbait on the market today.

All Baits Feature

1. The world's sharpest hooks. Gamakatsu #2, 2x strong treble hook.
2. Super durable fin and tail section.
3. Counter balanced pin segments that make the lures look alive.
4. The most realistic swimming action of any lure period. You simply cannot tell it is not a real fish.
5. Incredible lifelike finishes.

Mc Stick:
(Weight 1/2 oz., Size 110mm)

The Mike McClelland Signature Series Mc Stick jerkbait is designed for the tournament angler. It has 3 sticky sharp Gamakatsu # 5 Trebles that insure sure and solid hook ups. The Mc Stick is designed to suspend at lower water temperatures for those finicky early and late season fish, and it is a bait that is very easy to adjust for those aggressive warmer season fish. This bait is designed by a Mike McClelland to help everyone catch more fish year around on a jerkbait.

Little John MD / Little John

NEW
product

Little John MD:

(Weight 1/2 oz., Size 53mm)

The John Crews Little John MD Crankbait is designed to run deeper than the original Little John Crankbait. This bait will run down to about 9ft on 10 lb monofilament line to get down to those fish hanging on ledges where predators like to feed. The SPRO Little John MD comes in 9 fish catching colors that will help anyone catch more fish on a crankbait.

– John Crews, Professional Tournament Angler

Little John MD:

Little John:

(Weight 1/2 oz., Size 50mm)

“We built the SPRO Little John Crankbaits to run at depths of 3 to 5 feet. We used a computer chip board for the lip to create more feel and to be more durable. A silent weight transfer system using soft tungsten translates into incredibly long casts for a small crankbait, even in windy conditions. We used the world’s sharpest trebles – Gamakatsu. I think the SPRO “Little John” crankbaits are the best shallow running crankbaits, period.”

- Dean Rojas

Bronzeye Jr.: (Weight 1/2 oz., Size 60mm)

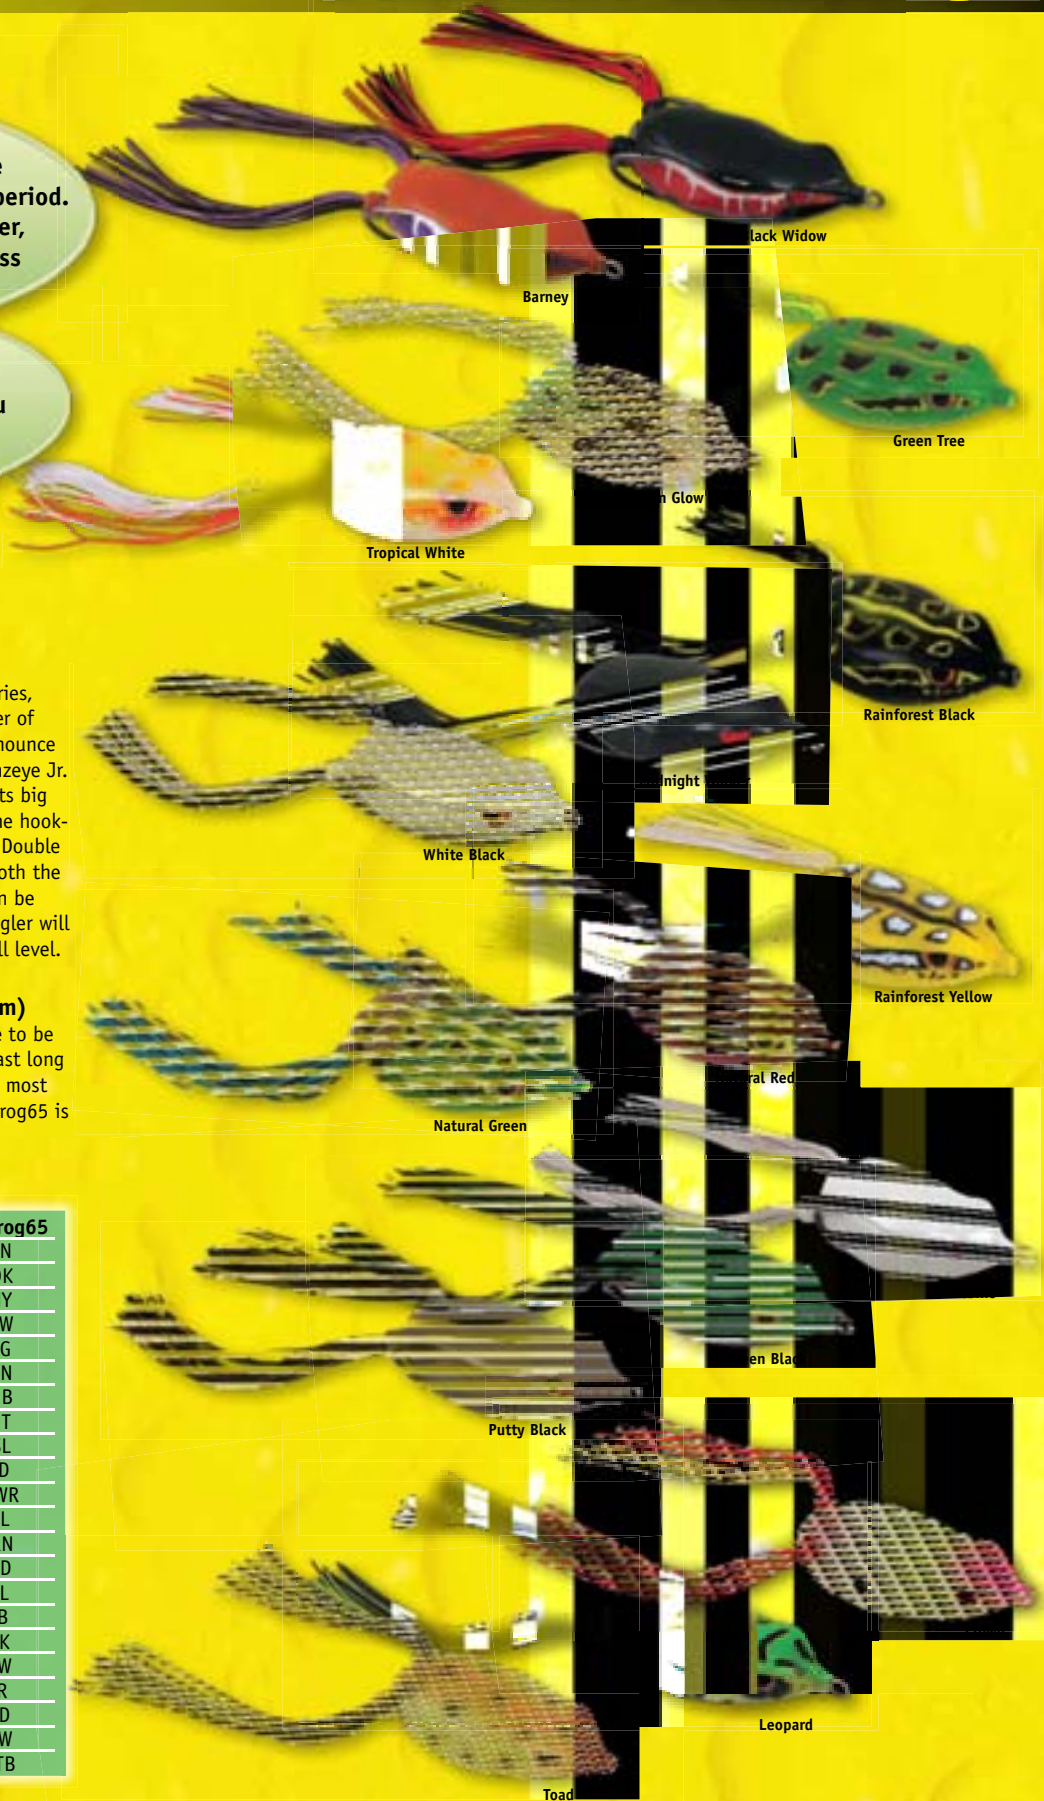

Everyone is familiar with the Dean Rojas Signature Series, SPRO Bronzeye Frog. The SPRO BronzeyeFrog65, winner of the "Best of Show Soft Bait" category is proud to announce the SPRO Bronzeye Jr. The Rojas Signature Series Bronzeye Jr. has a real attitude and is a leaner meaner version of its big brother. The body has been redesigned to maximize the hook-up ratio of the "New" Gamakatsu® Superline 3/0 EWG Double hook. New colors will also be available this year for both the Bronzeye 65 and the Bronzeye Jr. The Bronzeye Jr. can be fished on both spinning and bait casting gear. Any angler will be able to fish the Bronzeye Jr. regardless of their skill level.

BronzeyeFrog65: (Weight 5/8 oz., Size 65mm)

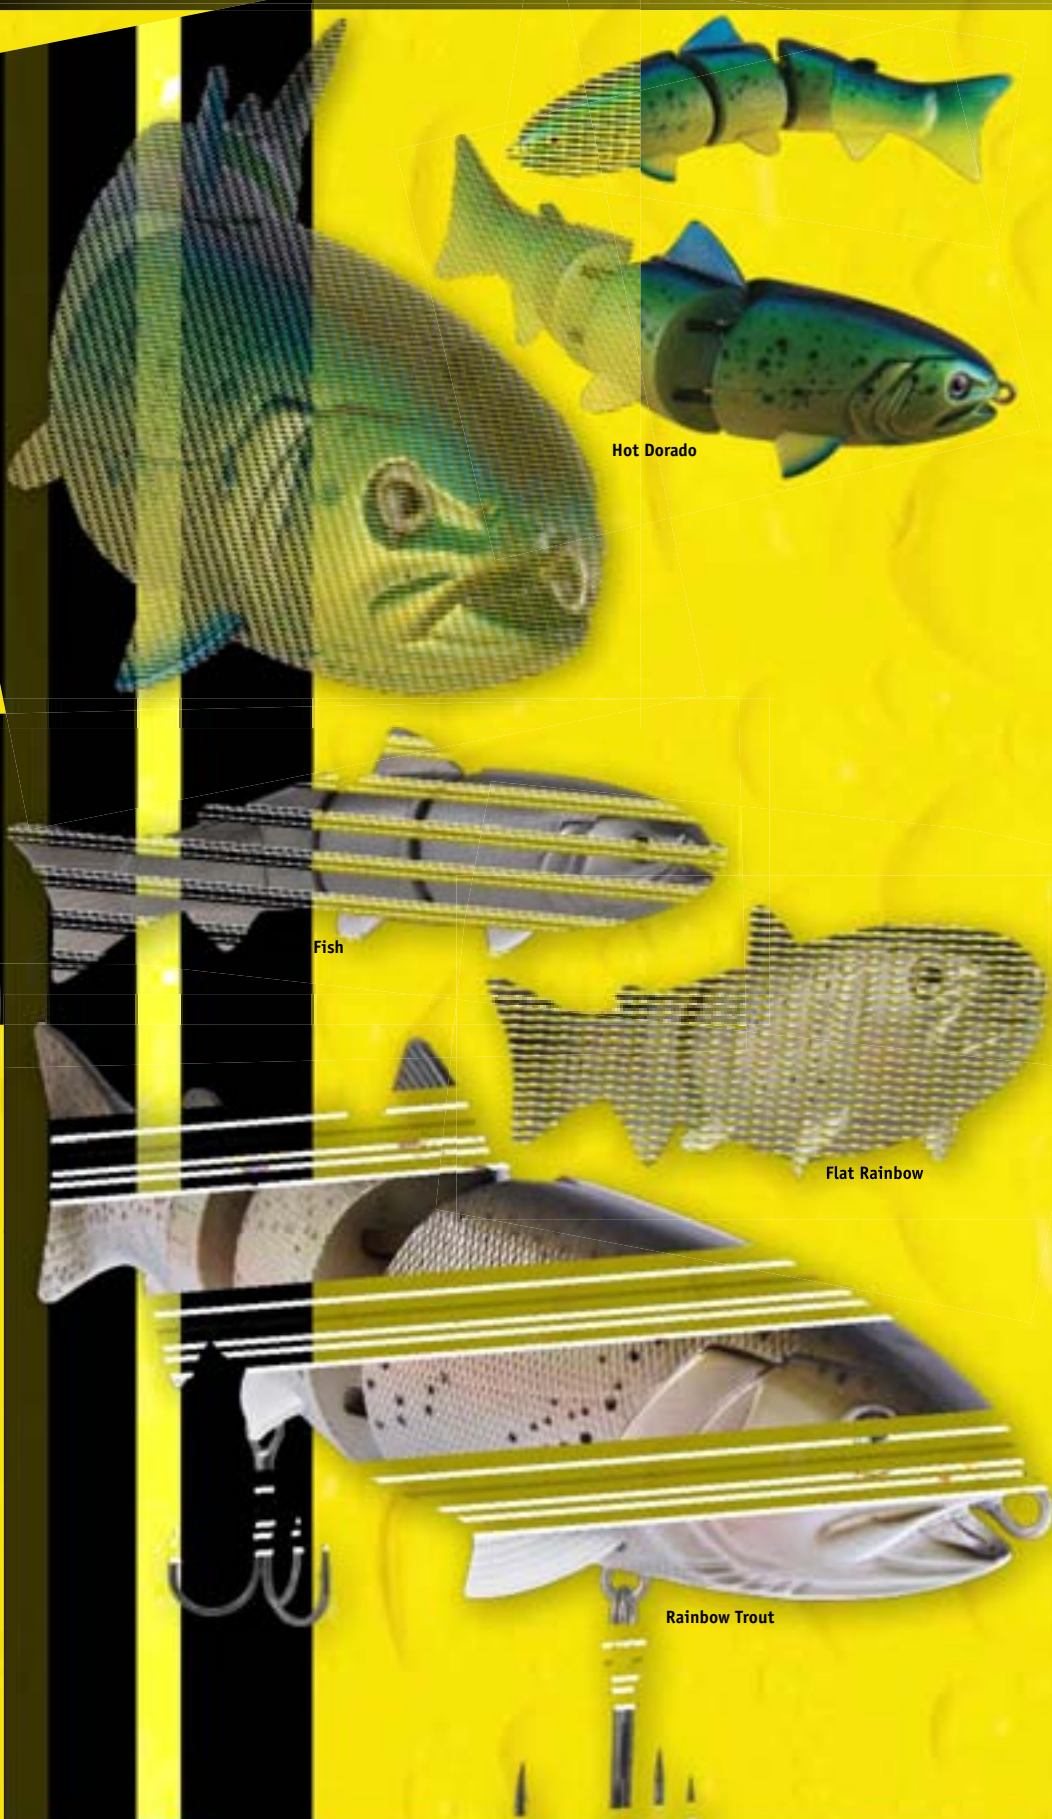

The SPRO BronzeyeFrog65 is the perfect size and style to be fished in heavy cover or in open water. Designed to cast long distances. Specially weighted to land on its belly. The most enticing colors. Gamakatsu hook. The SPRO BronzeyeFrog65 is the best on the market.

ArukuShad85

ArukuShad75

ArukuShad Jr.

ArukuShad Jr.: (Weight 3/8 oz., Size 60mm)

The Roland Martin Signature Series ArukuShad Jr. is the go to bait when you need to match the hatch. The ArukuShad Jr. is smaller, more compact and will attract bass with its rattling vibration. The ArukuShad Jr. is like ringing a dinner bell for predatory fish who are feeding on smaller forage. The two Gamakatsu® #6 Round Bend Treble hooks are sticky sharp to improve the hook-up ratio. The ArukuShad Jr. locks nose down on the bottom without falling over on its side.

ArukuShad75: (Weight 5/8 oz., Size 75mm, Sinking)

The SPRO ArukuShad75 does things no other lipless crankbait can. Uniquely made to lock on it's nose on the bottom, it is a great tool for bedding Bass. Designed to run nose down, it is the most weedless lipless crankbait on the market. Super loud rattles. Gamakatsu hooks. The SPRO ArukuShad75 is the best lipless crankbait on the market.

ArukuShad85: (Weight 1oz., Size 85mm, Sinking)

The SPRO ArukuShad85 does things no other lipless crankbait can. Uniquely made to lock on it's nose on the bottom, it is a super tool for giant Redfish. Designed to run nose down, it is the most weedless lipless crankbait on the market. Super loud rattles and 2X Gamakatsu hooks. The SPRO ArukuShad85 is the best lipless crankbait on the market.

SPRO Dawg100:

(Weight 9/16 oz., Size 100mm, Surface)

The SPRO Dawg100 is an excellent topwater lure to cover water quickly and pull gamefish to the surface. Fished in a "twitch and reel" motion, the Dawg100 works side to side in a "walk the DAWG" action. The dressed treble entices even finicky fish to the surface. Rigged with Gamakatsu hooks, the SPRO Dawg100 is the best topwater lure on the market.

Salt Dawg125:

(Weight 1 oz., Size 125mm, Surface)

The new SPRO Salt Dawg125 was designed with one thing in mind, catching big tough saltwater fish. Two extra strong sticky sharp Gamakatsu hooks and a super strong wire through harness make the SPRO Salt Dawg125 My go to lure for topwater action. It is the best on the market, period!

O.T. Fears has finally made public the secret lure he used to win the first ever Bass Superstar Tournament. The SPRO Superstar Spinnerbait. "This Superstar is built using piano wire, which makes it incredibly durable. The unique shaped Superstar blade gives it incredible vibration. You won't believe how it calls in fish in dirty water. Of course, I demanded the Superstar have sticky sharp Gamakatsu hooks. I won't fish with anything else. You have to fish the SPRO Superstar to believe it. For dirty water and current situations, the SPRO Superstar is the best Spinnerbait on the market, period!"

- O.T. Fears, Professional Fisherman

Dean Rojas Signature Series • SPRO

Hydro-Pop60

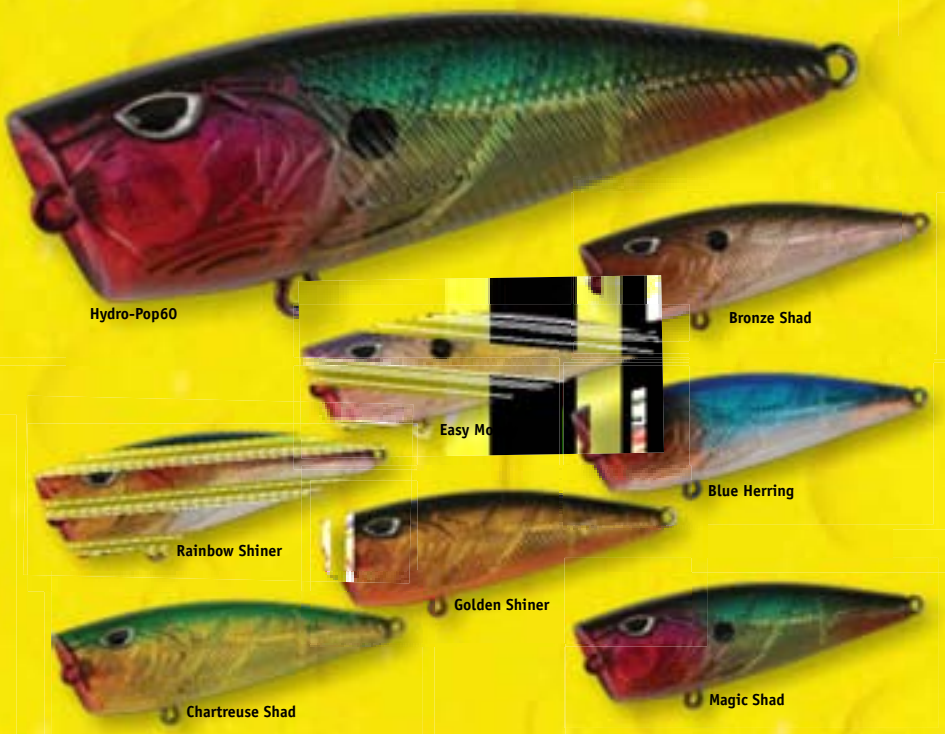

Hydro-Pop60: (Weight 3/8 oz., Size 60mm)

The SPRO Hydro-Pop chugger is part of my topwater system for catching giant bass. It has the perfect size and colors for enticing topwater action. The #5 dressed treble is slightly bigger than the industry standard size 6. This results in better hook ups and landing ratio. Sticky sharp Gamakatsu hooks are a must. I won't fish tournaments without them!

Shake & Bake: (Weight 3/8 oz.)

Gary Klein's first signature series SPRO lure is the Shake and Bake rattling jig. Built using the new 3/0 EWG superline double hook from Gamakatsu and a free swinging coiled trailer keeper. "I used the Gamakatsu EWG Double for two reasons. Each arm of the hook sits outside the head of the jig, greatly increasing hook ups. Leaving the hook free swinging takes the leverage away from the fish and ensures that the fish I hook, I catch. The SPRO Shake and Bake is the finest on the Market, Period!"
 – Gary Klein, *Legendary Professional Angler*

Gary Klein has taken jig fishing to the next level with the introduction of the SPRO K-Finesse series of jigs. "I started out by designing a new Gamakatsu hook that has the hook eye recessed back into the head of the jig. This greatly opened up the gap (or bite) of the jig. As a result, I hook and land more fish. I put all my years of experience into the design of the head, weed guard and skirts colors along with my new sticky sharp, super strong Gamakatsu hook. There is no finer jig on the market than the SPRO K-Finesse, period!"
 – Gary Klein, *Bass Fishing Superstar*

FatCrank20 & FatCrank30

FatCrank20: (Weight 3/8 oz., Size 2", Depth 0-2 Feet)

The FatCrank20 is the perfect search lure when fishing shallow water. It easily cast long distances and comes through cover better than other crankbaits. Great in shallow water or fished over the top of grass beds. Realistic finishes and Gamakatsu hooks make the FatCrank20 the best shallow water crank bait on the market.

FatCrank30: (Weight 1 oz., Size 3", Depth 0-2 Feet)

The FatCrank30 is the "match the hatch" lure when imitating large baitfish in shallow water. Designed to run 2 feet deep, the FatCrank30 is great in shallow water or fished over the top of grass beds. Standard realistic finishes and Gamakatsu hooks. When the fish are chasing larger bait in the shallows the FatCrank30 is the choice of Sports Professionals.

"Live Bucktail" Jig:

The next generation in bucktails from SPRO. This beautiful jig has the same fish catching qualities of the Prime Bucktail but with an added look.

The head of the jig has an angled screaming mouth which gives the impression of an even more frightened baitfish. This also gives it just a slightly different action and vibration which will compliment any anglers SPRO Bucktail assortment. It's hard to fish any Prime Bucktail wrong. It can be jigged off the bottom for weakfish, fluke, or other saltwater fish. Cast it at schooling fish working it quickly back to the boat for cobia, stripers, snook, or dolphin. Swim it/jig it along in freshwater for big bass, lake trout, and wall-eyes, or troll it for reservoir stripers. It's hard to find somewhere that SPRO Prime Bucktails won't work.

Mudkicker Bucktail Jig:

The SPRO Mudkicker Bucktail is a stand up, bottom hopping fiend of a bucktail that will catch all types of bottom feeding gamefish. The SPRO Mudkicker Bucktail is perfect for bottom hopping or allowing a bucktail to rest still on the bottom to entice a wary fish. Specially designed to sit flat on the bottom with hook facing up to avoid snags and higher hook up percentage. Beautiful finishes to attract the most fish. Unique head design that allows the Mudkicker to hop/swim on the bottom and rest flat. Tournament tested for action, durability, and effectiveness. Gamakatsu sticky sharp hook. Excellent for back marshes, surf, or flats fishing.

Jelly Jig (Parachute Jig): (Weight: 2 oz., 4 oz. or 6oz.)

Yet again, SPRO is revolutionizing the bucktail market with this pulsating beauty. Designed to endure tough conditions and big fish with a realistic leadhead and tantalizing hair. Available in three popular sizes and four colors. Of course armed with a heavy Gamakatsu sticky sharp hook.

Bucktail Jigs

“Whether it’s fresh water or salt water, nothing catches fish like a SPRO Bucktail.”
- Roland Martin, Legendary Angler

Bucktail Jigs:

The Prime Bucktail Jig is not like any other jig on the market. The unique shape of the head and placement of the eyelet help bring this lure to life. With bulging eyes, holographic finish, and blazing color, it puts fish at your mercy. The uniqueness of this bait is

that it doesn't fall or hang straight down like other bucktails. It glides through the water, almost swimming along. When jigged, its body stays almost parallel to the bottom maintaining a very natural appearance. Like all SPRO products, Prime Bucktail Jigs

are made with durable, super sharp Gamakatsu hooks. Once you fish it, you'll know why SPRO is the shape of things to come.

It's hard to fish the Prime Bucktail wrong. It can be jigged off the bottom for weakfish, fluke, or other saltwater

fish. Cast it at schooling fish working it quickly back to the boat for cobia, stripers, snook, or dolphin. Swim it along in freshwater for big bass and walleyes, or troll it for reservoir stripers. It's hard to find somewhere that the Prime Bucktail won't work.

Dressed Siwash:

The SPRO Ballhead Dressed Siwash replacement trailer is superior to any other dressed trailer on the market.

The sticky sharp Gamakatsu hooks will increase the hook up rate of any jig on the market. When it comes

to premium fishing tackle, SPRO and Gamakatsu are the right combination for today's serious angler.

Power Swivel Comparison					
SPRO		vs.		A Leading Brand	
Size 10	35 lb	N/A	N/A	N/A	N/A

Size 2/0	550 lb	Size 2/0	225 lb		

Power Swivels:

Don't let its tiny size fool you, these high-grade stainless steel swivels offer reduced visibility, smooth rotation, and unbelievable strength. SPRO Power Swivels are 1.5 times stronger than standard barrel swivels. Perfect for finesse fishing where stealth and power are critical. Also available: High quality Ball Bearing Swivels, Flat in line Heavy Swivels and more.

Ball Bearing Swivel:

SPRO Corp.'s Premium Ball Bearing Swivels offers anglers the ultimate in smooth rotation and exceptional durability. Available in N.S. black or nickel, these sought after swivels come in a variety of styles to fill the needs of any fisherman. Snap Lock, Coast Lock, Split Rings.

Heavy Swivels:

Once only available for commercial use, these tiny, heavy-duty swivels provide tremendous strength and durability that can only be found from SPRO. There isn't another swivel out there that can match the size and strength of a SPRO Heavy Swivel. Whether you're after big catfish, mako sharks, or a monster tuna, SPRO Heavy Swivels are up to the challenge.

"There is nothing that comes close to the brutally strong SPRO swivel, the strongest in the industry period! I use them exclusively on my floating worms, carolina rigs, and drop-shot rigs."
- Dean Rojas

Adjustable Bait Rigs:

This rig is used for quick strike rig set-ups, trolling small baits, or double hooking bigger baits. Simply adjust the front hook to the size of the bait. The front hook is then inserted through the front lip of the baitfish or front piece of the strip bait, while the rear hook is placed in the lower section of the bait. Pull the tag end of the front hook tightly to secure.

Sliding Hook Rig:

This rig is used for quick strike rig set-ups, trolling small baits, or double hooking bigger baits. Simply adjust the front hook to the size of the bait. The front hook is then inserted through the front lip of the baitfish or front piece of the strip bait, while the rear hook is placed in the lower section of the bait. Pull the tag end of the front hook tightly to secure.

Sliding Hook Rig:

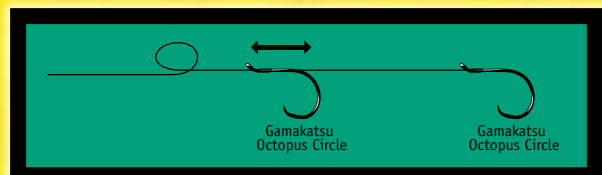

This rig is used for quick strike set-ups and slow trolling live baits. Simply adjust the front hook to the size of the bait being used so the rig length is 2/3 of the bait size. Pull the tag end of the front hook tightly to secure in place. Lastly, either let the treble hook dangle freely or insert in the lower tail section of the bait. The adjustable kingfish rig uses wire throughout to avoid toothy cut-offs. Equipped with 4X strong Gamakatsu hooks and a 50lb SPRO Power Swivel.

Fluorocarbon

Fluorocarbon Salmon Leader:

SPRO is proud to offer a Salmon Leader that incorporates Fluorocarbon line and a SPRO Swivel into their already popular Salmon Leader product line. The advantages of the SPRO Fluorocarbon Salmon Leader is the use of 20# test, Fluorocarbon line which is tough, abrasion resistant and has a minimum of the stretch and is practically invisible in the water. The attributes of the Fluorocarbon line teamed with a SPRO Power Swivel and Gamakatsu® Barbless In Line Circle in a size 3/0 or 4/0 is without a doubt a winning combination.

SFTRL-10-4	Red	10	4
SFTRL-08-6	Red	8	6
SFTRL-06-6	Red	6	6

Fluorocarbon Drop Shot Rigs:

Drop Shot fishing is finesse fishing that can be aided by the introduction of a Fluorocarbon Drop Shot Rig. SPRO is proud to introduce the Fluorocarbon Drop Shot Rig. This rig will be equipped with a Gamakatsu® Drop Shot Hook in sizes 4,2,1 and 1/0. The Finesse fisherman knows that a quality abrasion resistant leader, that is practically undetectable in the water and has a minimum amount of stretch will help the detect each bite and increase their landing of fish that do take the bait. The leaders will be available in 6 and 8 pound test.

Fluorocarbon Drop Shot Rigs: Leader Length 6'

Stock No.	Color	Hook Size	Test Lb
SFDSR-4-6	Black	4	6

SPRO Fluorocarbon Leaders:

SPRO Heavy Fluorocarbon Leaders are perfect for Muskie fishing. Stop line cut offs and eliminate line twist. Made with SPRO Power swivels for super strength and smooth rotation, SPRO Premium Leaders are the best on the market.

Fluorocarbon Leader with Power Swivel: Black

Stock No.	Size	Length
SFCLPS-80-2	80	10"
SFCLBB-80-2	80	10"

"SPRO Fluorocarbon rigs are designed with the world's best components. SPRO Power Swivel (The world's smallest, strongest swivels), Gamakatsu Hooks (The world's sharpest hooks) and premium Fluorocarbon line.

I designed these rigs to be the best."

- Dan Kadota, Voted to the All-Time, Top 30, Best West-Coast Angler's list.

Twinex / Wire Leaders

The SPRO Twinex Kingfish Stinger Rig is the evolution of terminal tackle. Rigged with an extra strong Gamakatsu live bait hook, the Twinex is a 4X strong double stinger hook. The tiny Twinex arm of the hook slips easily into all live bait. The tiny, almost invisible barb holds snugly to the bait without killing it. Fish longer because your bait lives longer. Rigged on 40 to 70 pound premium wire, the SPRO Twinex Kingfish Rig is a must for all serious saltwater anglers.
- Harry Crump

SPRO Twinex Kingfish Stinger Rig:

Stock No.	Type	Live Bait Hook Size	Twinex Hook Size	Length

STKRYS-4/0-1	Yellowtail	4/0	1	50"

SPRO Wire Leaders:

SPRO wire leaders are top quality steel leaders for use by anglers that demand the most of their tackle. These flexible leaders are coated with a black nylon for extra durability and corrosion resistance. Only top quality SPRO ball bearings swivels are used on our wire leaders to ensure top performance. SPRO wire leaders feature a secure interlock snap for quick lure changes.
