Host: Spanish Fly
"Three exceptional assist rig designs for butterfly jiggging."

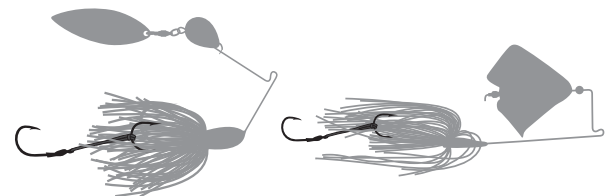

Also ideal for a variety of fresh & saltwater Applications

TRAILER HOOKS

Use wire assist rigs for pike and musky.

Use spectra singles for bass.

STINGER HOOKS

Spectra singles are great on swim jigs. Use wire assist rigs for toothy species.

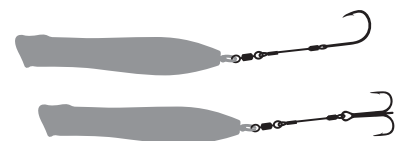

TROLLING LURES

Use treble wire assist rigs as a back hook for Wahoo, Grouper, Barracuda, Tuna, Kingfish, Pike, Musky and more.

TOPWATER

Wire assist rigs are a great option on topwater plugs for Tuna, Striped Bass, Shark, Barracuda, Kingfish, Bluefish and Dolphin.

FISHING BOTTOM STRUCTURE

As ACTIVATE™ flows out of the SURESTRIKE™ device on the bottom fishing rig, it flows with the current into the wreck. this draws out the desired larger game fish to feed. As they follow the activate trail, they are drawn away from the cover, allowing the angler to hook, fight and land the fish without the fish getting back into the wreck and breaking off.
