51535101	BSC 6455XXH-5 1/2' AR	60-100

Our Black Classic Series is made up of all of the traditional rod actions built from black E-Glass. These rods are equipped with a traditional stainless wire guide and tip and wrapped with an attractive black with blue base accents. These are the very rods that Southern California sportfishing was built on. We have short heavy action rods for offshore fishing. There are the traditional conventional rods for every type of bait and jig fishing, and even a full assortment of Spinning gear for those who prefer it. These rods are built to last and will definitely be the perfect choice for fishermen who are just getting started to those who like the forgiving actions of E-glass rods.
