

# Seeker Classic Series

## BLANKS

Our Black Classic Series is made up of all of the traditional rod actions built from black E-Glass. These are the very rods that Southern California sportfishing was built on. These blanks are built to last and will definitely be the perfect choice for fishermen who are just getting started to those who like the forgiving actions of E-glass rods. From ultra-light freshwater to offshore bill fishing this series has the right action. Tried and true for 40 years!

Sys #	Model #	Line Rating	Length	Tip Size	Butt Size
