STAINLESS PLIERS

CP850 / CP850EX

The CP850 is constructed from 17-4 Stainless Steel with non-slip rubber grips molded integral with the handle. Replaceable line cutters consist of anvil and cutter, both constructed of tungsten carbide and diamond ground for sharpness. Sleeve bearing is machined from solid brass and is electroless nickel plated to give years of corrosion protection with non-seizure operation. The jaws are alloyed with hard carbide for an excellent grip without damaging the hook. Has the capability of cutting new technology fiber braided lines, up to 450lb. monofilament, as well as 180lb. stainless line. In addition the CP850EX has channel grooves machined into the jaws and an internally mounted return spring. Approximate weight is 5 oz.

No.	Length
DONCP850	6 ³ / ₈ "
DONCP850EX	6 ³ / ₈ "

No.	Length	Weight
DONCP880	7 ¹ / ₄ "	8 oz.

CP950 / CP900

The CP950 is constructed from 17-4 Stainless Steel with nonslip rubber grips molded integral with the handle. Jaws are channel-cut at a 20° diamond pattern for secure holding power. Pivot bearing is machined from solid brass and are electroless nickel plated to provide a lifetime of non-seizure operation. The unique line cutter design cuts solid wire up to #19. In addition, they cut stranded wire and new technology braided line cleanly without leaving frayed or distorted ends. Approximate weight 10.5 oz.

The CP900 is constructed from 17-4 Stainless Steel with nonslip rubber grips molded integral with the handle. Jaws are channel-cut at a 20° diamond pattern for secure holding power. Pivot bearing is machined from solid brass and electroless nickel plated to provide a lifetime of non-seizure operation. Approximate weight 10.5 oz.

HOLSTERS

Each holster is artfully crafted, treated leather used in military and law enforcement applications, where outdoor wear and durability is required for holsters, belts, cases, etc. The leather is custom formed to retain the plier in the holster, yet allows easy plier removal when required. Each holster is fully stitched to outperform and outlast other leather sheaths in water, scuff, stain, and stretch resistance. Holsters may be worn with or without a belt. This holster is made specifically for the CP900/950 series plier.

TITANIUM PLIERS

CP900Ti / CP850EXTi / CP950Ti

The CP900Ti is constructed with lightweight military grade titanium providing a lifetime of rust-free operation. The nonslip Sanoprene® rubber grips are molded integrally with the handle for "sure nonslip" gripping in wet environments. The CP900Ti also features diamond ground "dual vee" tungsten carbide line cutters for easy cutting of new technology fiber line, stainless wire up to 180 lbs., and monofilaments. Jaws are channel cut at a 20° diamond pattern for secure holding power. The Pivot bearing is machined from solid brass and are electroless nickel plated to provide non-seizure operation. Approximate weight 6.5 oz.

CP900Ti

CP850EXTi

CP950Ti

The CP850EXTi is constructed with lightweight military grade titanium providing a lifetime of rust-free operation. The nonslip Sanoprene® rubber grips are molded integrally with the handle for "sure nonslip" gripping in wet environments. The CP850EXTi also features diamond ground "dual vee" tungsten-carbide line cutters for easy cutting of new technology fiber line, stainless wire up to 180 lbs., and monofilaments. The Pivot bearing is machined from solid brass and are electroless nickel plated to provide nonseizure operation. Approximate weight 3 oz.

CP950Ti pliers are a prime example of quality and durability. The CP950Ti is constructed with lightweight military grade titanium providing a lifetime of rust-free operation. The nonslip Sanoprene® rubber grips are molded integrally with the handle for "sure nonslip" gripping in wet environments. The CP950Ti also features a unique line cutter design that cuts wire up to and including #19. This product cuts stranded wire and new technology braided line cleanly without leaving frayed or distorted ends. Jaws are channel cut at a 20° diamond pattern for secure holding power. MSTD-2	8"

20-LB. & 50-LB. MECHANICAL SCALE

- Highly accurate
- Stainless steel spring and hook
- Rust-resistant aluminum housing
- Marker records weight after fish is removed from scale
- Easy-grip rubberized handle

No.	Size
MSTD-8	20 lb.
MSTD-9	50 lb.

HEAVY-DUTY 6" & 8" NEEDLE NOSE PLIERS

- Wire/monofilament side cutter included
- Fine polished stainless steel finish for maximum rust and corrosion prevention
- EVA double-dipped sure-grip handle eliminates slippage and provides maximum durability
- Durable denier tool sheath with Velcro® closure and metal belt clip

No.	Size
MSTD-3	6"
MSTD-4	8"

50-LB. DIGITAL SCALE

Made from hi-impact plastic and records lbs and kgs in 1 oz. (.01kg) increments. Memory stores up to nine weights and features back-light and low battery level indicator.

No.	Size
MSTD-12.5	50 lb.

LONG REACH 11" LONG NOSE PLIERS

- Great for big, aggressive toothy fish
- Corrosion- and saltwater-resistant
- Sure-grip, water-absorbent braided handle

No.	Size
MSTD-5	11"

HOOK SHARPENER

- Aluminum oxide stone
- Durable ABS plastic housing slides on and off sharpening stone, preventing damage
- 36" heavy-duty woven neck lanyard

No.
MSTD-18

HEAVY-DUTY 7" WIRE CUTTERS

- Fine polished stainless steel finish for maximum rust and corrosion prevention
- EVA double-dipped sure-grip handle eliminates slippage and provides maximum durability
- Durable denier tool sheath with Velcro® closure and metal belt clip

No.	Size
MSTD-6	7"

8-in-1 FISHING TOOL

Stainless steel construction includes:

- Sharpening file
- Line pick to untangle unruly line
- Jig-eye pick (buster)
- Pocket knife
- 2 bending edges, great for bending hooks, tuning lures and straightening hook points
- Super-sharp cutting tool
- Large thumb bar with foam grip
- 36" heavy-duty woven neck lanyard

No.
MSTD-19B

6" FORECEPS

- 6" includes scissors and micro-fine tip
- Great for removing hooks, trimming line, tying small baits and tightening functions
- Fine polished stainless steel finish for maximum rust and corrosion prevention
- Locking handles with large finger holes
- EVA double-dipped sure-grip handle eliminates slippage and provides maximum durability
- 36" heavy-duty woven neck lanyard

No.	Size
MSTD-7	6"

BRAIDED FILLET KNIFE AND SHEATH

- Razor-sharp stainless steel blade will hold its edge through extended use
- Flexible blade works through meat and bones
- Wooden handle interior for toughness
- Sure-grip, water-absorbent braided handle

No.	Size
MSTD-26	7.5"

DuBro PRO Series

ROD HOLDERS

Perfect for garage, boat, or cabin. Simply use #8 size sheet metal or wood screws for mounting. These Rod Holders accept rod handles up to 1 3/4" in dia. Packaged 3 pair per card.

No.	Description

7" MONOFILAMENT NIPPER

This heavy duty nipper has the integrity to cut 700lb. mono virtually forever while maintaining the precision to cleanly part the skimpiest of line. Super sharp cutting edges! Stainless steel for rust prevention. Integral plastic handles. Spring loaded for convenience. Lock mechanism for safety. This tool is the answer to the monofilament fisherman's dreams.

No.
2011

8" LONG NOSE PLIERS

If you fish live bait with small hooks, or catch fish which tend to get hooked deep, we have the answer—a quality, rust-resistant stainless steel tool to help retrieve those hooks. The Manley Long Nose Plier is a full 8" long to reach deep into the fish's throat. The pliers have a cutting jaw which is adequate for light cutting work. Heavy cutting will require Manley 6 1/2" or 5" Super Pliers with the side cutting jaws. The long nose pliers are fitted with attractive plastic handle grips.

No.
2010

"GRIPPER NIPPER" PLIERS

This unique tool was developed by Manley who wanted to perfect a single plier that combines the scissor-like ability of our own Mono-Nipper with the gripping action of our famous Super Plier. Spring loaded and comfortable handles are wonderful features that make this a very user-friendly plier.
