

YETI[®]

COOLERS

Wildly Stronger! Keep Ice Longer!

Tundra

Yeti's next generation cooler. The Yeti Tundra delivers the long-term ice retention you need, while withstanding the rigors of your outdoor activities.

- One piece roto-molded construction for durability.
- Filled with 2" of polyurethane foam to provide superior insulation.
- Freezer-style sealing gasket to lock in the cold.
- Heavy-duty T-latches with molded-in keepers to fasten the lid securely closed.
- Lockable lid to keep the bears (or your friends) out!
- Constructed of food grade materials that are dry ice compatible.
- Molded-in, full-length, self-stopping hinge, so you never have to replace a hinge again!
- Compounded UV polyethylene for long-term color and plastic stability in the harshest of conditions.
- Outer dimensions similar to other popular marine coolers for an easy upgrade.

Non-Slip, Non-Marking Rubber Feet to keep the cooler in place

Dry Goods Rack

Strong rope handles with sure grip for an easy haul & a recessed leak-proof drain plug.

Integrated tie-down capability for solid mounting.

ITEM	L"	W"	H"	SIZE

YETYT250	55"	22"	21 1/4"	250qt

Roadie

The Yeti Roadie has the same hard wearing features and thermal qualities as its big brother, the Yeti Tundra. In addition, it has a stainless steel handle for easy carrying.

The Roadie is the toughest, coldest small ice-chest available. Whether you use it for road trips, on daily job-sites, or your next outdoor excursion, the Yeti Roadie can handle anything you can throw at it.

- One piece roto-molded construction for durability.
- Filled with 2" of polyurethane foam to provide superior insulation.
- Recessed leak-proof drain plug. (25 qt. only)
- Lockable lid
- Constructed of food grade materials that are dry ice compatible.
- Molded-in, full-length, self-stopping hinge, so you never have to replace a hinge again!

COOLERS

Wildly Stronger! Keep Ice Longer!

Freezer style sealing gasket to lock in the cold

Stainless Handle for an easy haul

Heavy-duty T-latches with molded-in keepers to fasten the lid securely closed

Non-slip / non-marking rubber feet to keep the cooler in place

Fiberglass

The Yeti Fiberglass series has a look and performance like no other cooler available.

Designed primarily for marine use as a boat-based, stationary cooler, the Fiberglass series complements watercraft from flats skiffs to sportfishing yachts. The superior insulating properties, freezer-quality seal, rubber feet, detachable lid and easy to clean, gel-coat finish make the Fiberglass series our top of the line cooler.

COOLERS

Wildly Stronger! Keep Ice Longer!

TIE-DOWNS

Your cooler isn't going to go anywhere. Whether you're securing your Yeti cooler to a boat, truck-bed, trailer or Bar-B-Q rig use the Yeti cooler tie-down system. When not in use only the deck plates remain, leaving nothing to trip over.

All hardware is stainless steel.

TD Tie-down Kit (*Tundra & Fiberglass*)

RUBBER CORNER CHOCKS

Secure your cooler with a heavy-duty chocking system. The Yeti Rubber Corner Chock fits the Tundra series as well as most other sizes and makes of coolers. The Rubber provides excellent non-abrasive support and can withstand years of wear and tear. *Does not include tie-down or mounting hardware.*

CC Corner Chock Set (*Tundra*)

SEADEK[®]

Wanna stand on your cooler? Durable and slip-resistant, SeaDeK provides excellent traction when using the cooler top as a platform and protects your cooler lid from wear and tear. SeaDeK has a pressure sensitive adhesive backing that makes application a breeze. Just peel off backing and stick on cooler.

Available for all Tundra and Fiberglass models.

COOLER CUSHION

The Yeti Coolers seat cushion is made of tough, white, UV Marine Vinyl. The 2" cushion attaches to the cooler with stainless steel snap closures. Installation is easy - screw the stud right onto the cooler lid and attach cushion.

Available for all Tundra and Fiberglass models.
