

# Sherpa

This is the cooler that sets Yeti apart from the rest. The Yeti Sherpa cooler has a one-piece, roto-molded shell with 2" of polyurethane foam insulation and a unique built-in

sealing gasket. This combination of insulation and superior sealing provides industry leading ice retention. Outstanding thermal properties, durable construction and innovative hardware (non-slip rubber feet and integrated heavy-duty hinges) make this our best-selling cooler series.

YETFCL	Fiberglass Cushion Large (90, 105, 125, 155 and 200 qt.)

# Fiberglass

The Yeti Fiberglass series has a look and performance like no other cooler available. Designed primarily for marine use as a boat-based, stationary cooler, the Fiberglass series complements watercraft from flats skiffs to sportfishing yachts. The superior insulating properties, freezer-quality seal, rubber feet, detachable lid and easy to clean, gel-coat finish make the Fiberglass series our top of the line cooler.
