BABE WINKELMAN

HOST OF "OUTDOOR SECRETS"

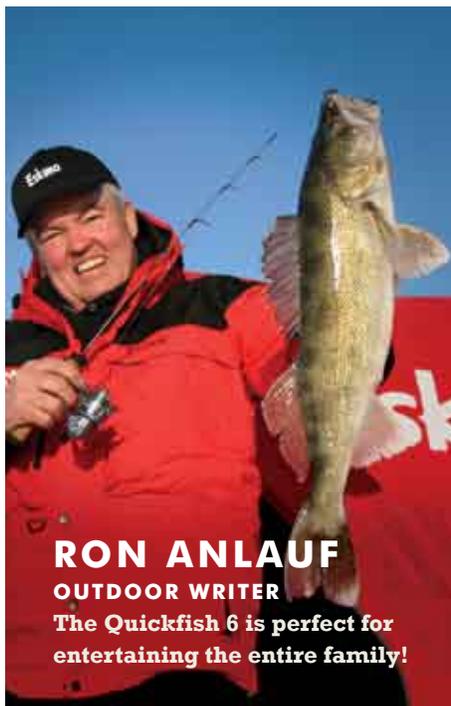

Eskimo shelters just keep getting better and better! The comfort, storage, features and durability of the pull-behinds are unmatched by any other brand. And Eskimo's pop-up portables are so roomy and easy to set up that they've changed ice fishing forever!

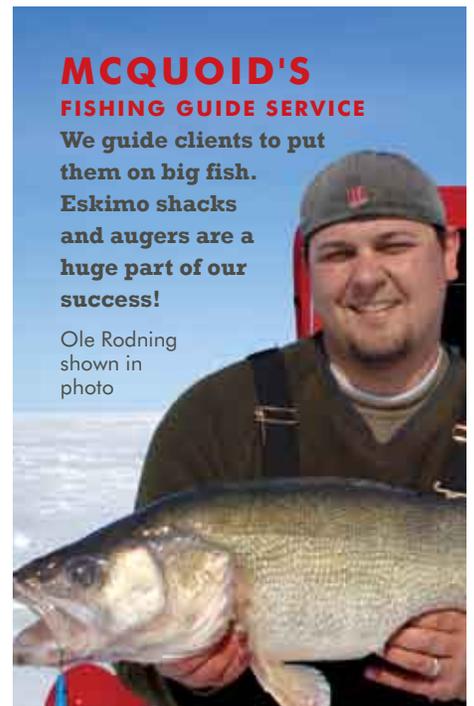

Warning labels in some product images may have been removed for photography purposes only. Props shown in photos not included. Some assembly may be required.

TERRY TUMA
PROFESSIONAL ANGLER
The Eskape shelter gives fishermen everything they want in a flip-style shelter.

RON ANLAUF
OUTDOOR WRITER
The Quickfish 6 is perfect for entertaining the entire family!

MCQUOID'S FISHING GUIDE SERVICE
We guide clients to put them on big fish. Eskimo shacks and augers are a huge part of our success!

ESKIMO, AN ICE FISHING LEGEND SINCE 1960

For more than 50 years, Eskimo has been for and about one thing—the ice fisherman. Year after year, when that first chill in the air comes and the ice begins to beckon, we get the itch for the lake just as much as you do.

That dedication and years of technological improvements have produced some of the most influential products on the market. Eskimo is the originator of the Pop-Up Portable Ice Shelter category, and our Quickfish Series of shelters remains number-one in the market. We have staked a claim in history with the powerful Shark Z71 ice auger, which boasts a Viper engine that has the highest displacement available on any ice auger.

Our Viper two-cycle engines have been uniquely designed for ice fishing and are the best ice auger engines in the world. Eskimo Quantum auger blades lead the industry in cutting speed, control, smoothness and long life. When it comes to ice fishing gear, Eskimo is the best of the best.

You can rest assured that when you are outdoors combating the real world scenarios of ice fishing, you will have a product that will survive the test of time in Eskimo. We are proud of that heritage in the ice fishing world and remain dedicated to ensuring you have the best equipment when out on the ice. It's no wonder why more ice fishermen choose Eskimo than any other brand.

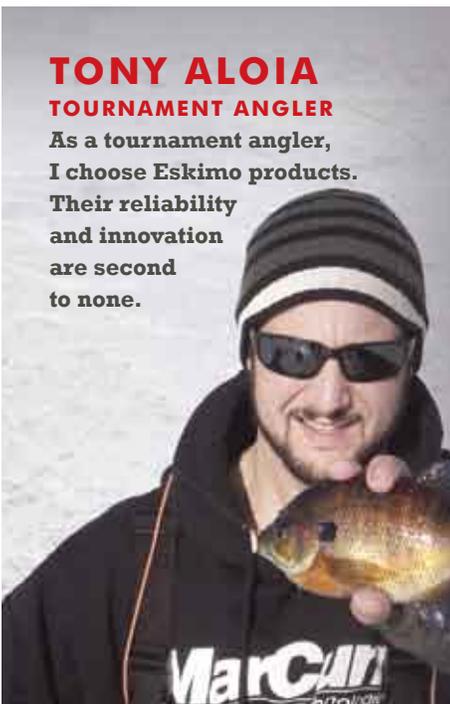

TROY PETERSON
MR. BLUEGILL
GUIDE SERVICE

Not only does my Z51 cut like a dream, it never takes more than one pull to get it started. It truly is the most dependable and best-cutting auger I have ever used.

VISIT WWW.GETESKIMO.COM

TONY ALOIA TOURNAMENT ANGLER

As a tournament angler, I choose Eskimo products. Their reliability and innovation are second to none.

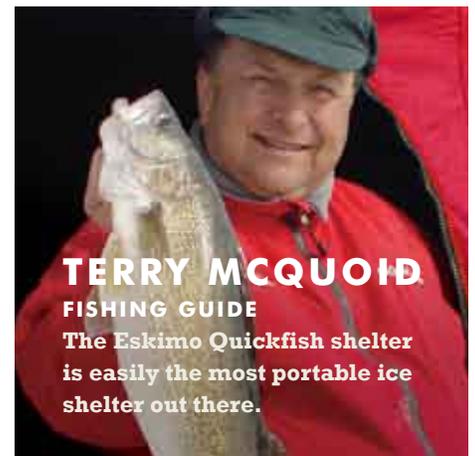

BARB CAREY WISCONSIN WOMEN FISH

Our Eskimo Quickfish 6 shacks are used every weekend all winter and are the most versatile and durable shacks on the market. We can fish six students at a time. They make teaching ice fishing easy in all types of weather. Our club outings get bigger and bigger and the sea of red shacks continues to grow.

TERRY MCQUOID FISHING GUIDE

The Eskimo Quickfish shelter is easily the most portable ice shelter out there.

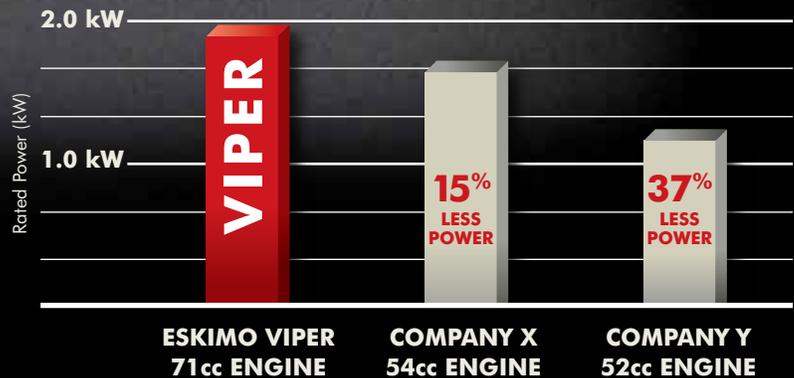

Eskimo[®]
ICE FISHING GEAR

SHARK Z71 IS THE MOST POWERFUL ICE AUGER IN THE WORLD*

15% MORE POWER THAN ESKIMO'S NEAREST COMPETITOR

According to EPA data, the Shark's 71cc two-cycle Viper is the most powerful ice auger engine you can buy. Our Viper engine generates 15% and 37% more power, respectively, than the other guys' top engines can muster. They may claim to have more power, but the facts speak for themselves.

QUANTUM

Nothing beats the long-lasting dependability of Eskimo's stainless steel Quantum blades.

SHAVING MEETS CHIPPING

Quantum blades are designed to bring together the best features of both pure shaving blades and pure chipping blades. With their one-of-a-kind balanced dual-blade system, Quantum stainless steel blades shave and chip simultaneously. Pure shaving blades become dull after hitting debris that has built up

in the ice. The serrated cutting edges of Quantum Blades will still chip at the ice, even after being subjected to harsh ice conditions.

CONSISTENT CUT

Quantum's unique auger ring prevents blades from getting stuck to ease drilling during the dreaded ice breakthrough. It also smoothens the redrilling of frozen-over holes.

A QUALITY BLEND

With Quantum, you have an optimum blade system that works with any ice fisherman to get a quick, even and controlled cut. Spend more time enjoying fishing and less time working on the ice.

All weights, specifications and features are approximate and are subject to change without notice. Due to continuous product improvements, product images may not be exact.

VIPER ENGINES

PROVEN BALANCE OF SPEED, POWER AND PERFORMANCE

Eskimo has used Viper engines in its power ice augers for more than seven years. They have been specially designed for cold weather conditions, so when summer-style engines of other augers break down on the ice, Viper keeps going. With four different 2-cycle engine options, Viper supplies a complete range of high-performance power for the dedicated ice fisherman. The resounding message anglers are sending is that Viper engines are powerful, fast, and reliable. Upgrade to a Viper-powered Eskimo ice auger and you'll be pleased with the investment.

SHARK SERIES

THE MOST POWERFUL ICE AUGER IN THE WORLD

SHARK Z71

71.0
cc

Don't be fooled by the claims of others—the Shark Z71 is the most powerful ice auger in the world. It features a 71cc Viper two-cycle engine specially designed for ice augers. With high torque and RPM, you'll have a Viper engine that overpowers the competition, but remains easy to start and operate. From top to bottom, the Shark Z71 has the strength you need on the ice. Expect reliability.

SPECIFICATIONS	Z71Q10
Engine RPM	8,000
Displacement	71.0 cc
Gear Ratio	25:1
Auger Diameter	10 in
Weight	32 lbs
Warranty	2-year limited

EASIER STARTING

The Shark Z71 features a decompression button that makes starting easier.

QUANTUM

QUANTUM BLADES

All of our power ice augers feature razor-sharp Quantum blades for fast, smooth cuts every time.

ERGONOMIC

Our composite handle bar has comfortable hand grips and an easy-to-reach throttle.

SIMPLY UNSTOPPABLE

SHARK Z51

51.7 cc The Shark Z51 has a 51.7cc two-cycle engine that gives the strength expected of a Viper engine. The Z51 is lightweight and feature-loaded: it includes a mitten-grip recoil handle and Eskimo's exclusive Quantum blades. It is quick and easy to control, so you'll spend less time drilling and more time fishing. Enjoy your angling adventure and rely on the proven power of the Shark Z51 ice auger.

SPECIFICATIONS	Z51Q8,9,10
Engine RPM	8,000
Displacement	51.7 cc
Gear Ratio	25:1
Auger Diameter	8, 9, or 10 in
Weight	30, 31, or 32 lbs
Warranty	2-year limited

AUGER DIAMETERS
Choose from 8", 9" and 10" precision-cut Quantum blade augers.

PRECISION TRANSMISSION
Eskimo transmissions offer optimum gearing, sealed bearings, and heat-treated gears.

TOGGLE SWITCH
Turning your auger on or off with mittens is easy with our high-profile toggle switch.

MAKO M43

MAKO M43

STYLE AND PERFORMANCE

The Mako 43cc ice auger delivers the perfect blend of strength and stability for any angler's needs. It offers many of the features found on high-end augers, but in a more economical package. With Eskimo's exclusive Quantum blades, the original cold-weather Viper engine, and features like a mitten-grip recoil rope, you'll have a cost-effective, easy-to-use ice auger that you'll come back to year after year.

SPECIFICATIONS M43Q8,9,10

Engine RPM	8,000
Displacement	43.0 cc
Gear Ratio	30:1
Auger Diameter	8, 9 or 10 in
Weight	31, 32, or 33 lbs
Warranty	2-year limited

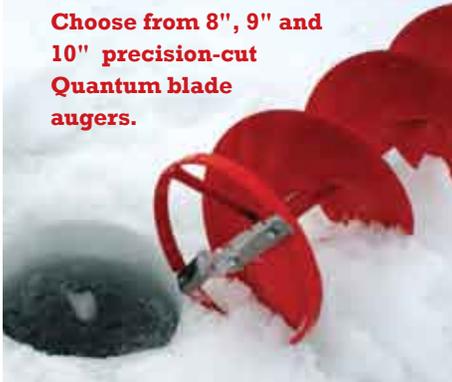

Warning labels in some product images may have been removed for photography purposes only. Props shown in photos not included. Some assembly may be required.

AUGER DIAMETERS

Choose from 8", 9" and 10" precision-cut Quantum blade augers.

TOGGLE SWITCH

Turning your Mako on or off with mittens is easy with our high-profile toggle switch.

FOAM-GRIP HANDLES

The Mako's comfortable handles are covered in foam to absorb vibration.

THE POWER OF ECONOMY

STINGRAY S33

Eskimo's Stingray has all of the features you need in an ice auger while being easy on the wallet. It is rugged, dependable, has fast-cutting Quantum blades, and is powered by a reliable 33cc Viper engine that starts in the coldest of weather.

SPECIFICATIONS	S33Q8
Engine RPM	8,000
Displacement	33.0 cc
Gear Ratio	49:1
Auger Diameter	8 in
Weight	28 lbs
Warranty	2-year limited

STEEL HANDLEBARS
Our wide-wing tubular handle bars are made of hand-crafted welded steel.

LEFT
Stingray is built with a long list of components typically reserved for high-end augers, such as a mitten-grip pull rope, a durable metal recoil housing, and the same Quantum blades found on the ridiculously powerful Shark models.

BARRACUDA™ & STANDARD™

BARRACUDA & STANDARD

TurboCut blades (left) are curved for speed, and Standard blades (right) are straight for long life.

CROSSBOLT TAKEDOWN

Easily assemble and disassemble your hand auger with Eskimo's crossbolt fastener.

POMMEL GRIP

Eskimo's hand auger pommel grip is designed to be grasped on top or on the side.

EARLY ICE DOESN'T STAND A CHANCE

Eskimo hand augers are a perfect travel companion for early- or late-season ice anglers. They are lightweight and effortlessly cut through the ice. TurboCut auger blades are curved for faster drilling. Standard hand ice auger blades are flat and designed for long life.

BARRACUDA™

STANDARD™

SPECIFICATIONS

Auger Length Adjust	55, 59, & 63 in
Standard Cut Diameter	6, 7 or 8 in
Barracuda Cut Diameter	6 or 8 in
Blade Style	TurboCut™ or Standard™
Handle	2 pc. Pommel
Warranty	1-year limited

REDNECK™ CHISELS

HEAVY-DUTY
The fully-welded steel design and rubber chisel head protector bring long-lasting durability to the Redneck.

LESS WORK
Chip more ice with fewer strokes with the Redneck's multi-faceted chipper head.

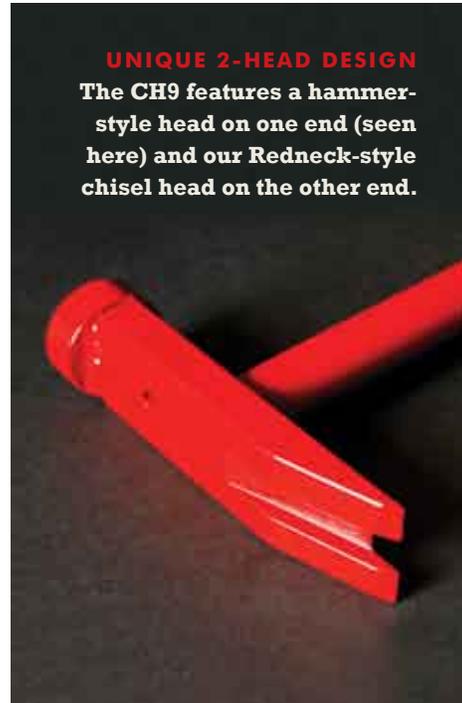

CLEAR THE WAY

REDNECK CHISELS™

Long-lasting. Durable. Comfortable. When it comes to Redneck Chisels, those words say it best. Our heavy-duty line of chisels has everything you need to effectively chip through the ice, from triple-blade technology to a foam-grip anti-vibration handle and tether rope. Rednecks are a rock-solid tool perfect for cutting out or reopening a hole early or late in the season. They're a must-have addition to your ice fishing gear.

CH12 CH11 CH10 CH9 CH7

UNIQUE 2-HEAD DESIGN
The CH9 features a hammer-style head on one end (seen here) and our Redneck-style chisel head on the other end.

THE LEADER

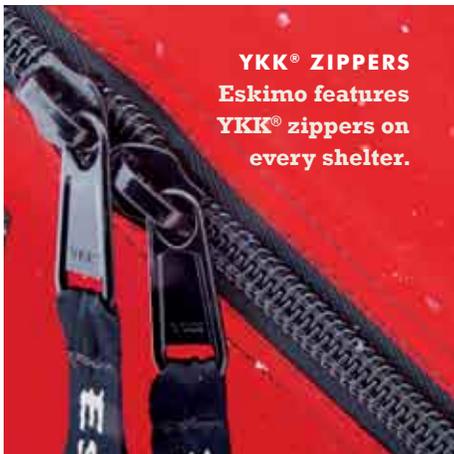

QUICKFISH ICE SHELTERS

Eskimo originated the category of Pop-Up Portables. The Quickfish is the first and the best—fisherman all over the world tell us that. Don't be fooled by imitations when you can have confidence in Quickfish.

60-SECOND SET-UP

Our sturdy Quickfish shelters are quick and easy to set up and take down.

YKK® ZIPPERS
Eskimo features YKK® zippers on every shelter.

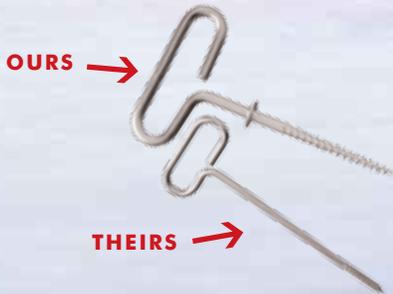

STORAGE POCKETS
Keep your essential fishing gear handy with our mesh wall pockets.

REINFORCED BOTTOMS
Heavy-duty material is sewn over the joints at all four corners to increase strength and durability.

IN POP-UP PORTABLES

STRONGER ICE ANCHORS

Our ice anchors are easier to grip, won't bend under pressure, and have more threads for deeper connections with the ice.

AMAZING ROOM
True 2, 3, 4 & 6
person capacity

PORTABILITY

Everything fits into a bag that you can easily carry on your back.

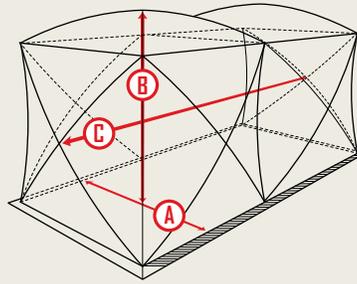

REMOVABLE WINDOWS

Adjust your shelter's ventilation with detachable Velcro® windows.

QUICKFISH 6, 3, 2

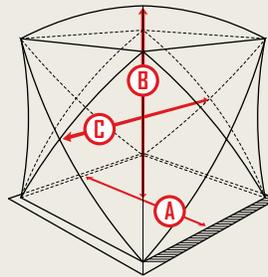

QUICKFISH 6

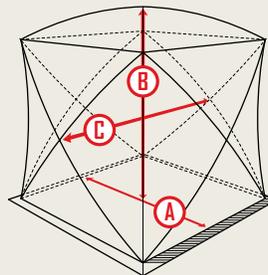

QUICKFISH 6	69149
Capacity	6-person
Set-Up (A)	140 in x 70 in
Height (B)	80 in
Elbow Room (C)	160 in x 90 in
Fishable Area	68.0 sq ft
Weight	38 lbs
Warranty	1-year limited

QUICKFISH 3

QUICKFISH 3	69143
Capacity	3-person
Set-Up (A)	70 in x 70 in
Height (B)	80 in
Elbow Room (C)	90 in x 90 in
Fishable Area	34.0 sq ft
Weight	23 lbs
Warranty	1-year limited

QUICKFISH 2

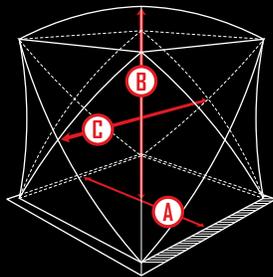

QUICKFISH 2	69151
Capacity	2-person
Set-Up (A)	60 in x 60 in
Height (B)	67 in

QUICKFISH 4

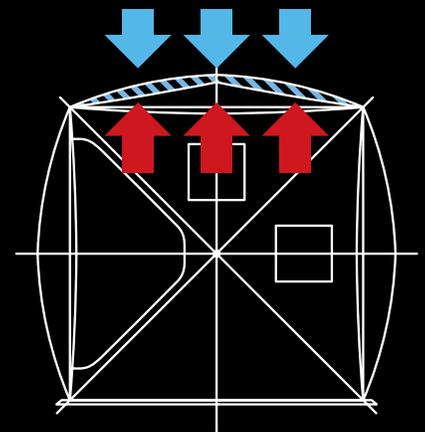

Big enough for four people, the Quickfish 4 is a spacious shelter that remains incredibly portable. It also features our exclusive Cold Air Barrier as an added layer of insulation from the cold winter weather.

QUICKFISH 4	69444
Capacity	4-person
Set-Up (A)	90 in x 78 in
Height (B)	92 in
Elbow Room (C)	110 in x 100 in
Fishable Area	48.75 sq ft
Weight	30 lbs
Warranty	1-year limited

QUICKFISH 4 FEATURES:

COLD AIR BARRIER

KEEP WARM AIR IN AND COLD AIR OUT

Exclusive to Eskimo, the Cold Air Barrier of the Quickfish 4 is a ceiling panel in the roof that forms an insulating space that both retains heat and keeps out the wintry abuse of Mother Nature—all while reducing condensation in the shelter.

VISIT WWW.GETESKIMO.COM

TWO DOORS

Two large doors allow easy entry and exit and ensure you won't disrupt your gear or other fishermen.

VIEW FROM THE TOP

This diagram displays the amazing amount of room in our new Quickfish 4.

EIGHT LARGE WINDOWS

Large, removable windows provide a great view from nearly any angle and ensure you won't miss a beat.

ESKAPE 400 & 350

ESKAPE TO ESKIMO COUNTRY

Warning labels in some product images may have been removed for photography purposes only. Props shown in photos not included. Some assembly may be required.

ESKAPE 400

SPECIFICATIONS	69164
Capacity	4-person
Set-Up (A)	146 in x 61 in
Height (B)	75.5 in
Fishable Area (D)	46.2 sq ft
Weight	192 lbs
Warranty	1-year limited

ESKAPE SERIES

Ice fishing is just as much about getting away from the hassles of everyday life as it is about catching fish. With Eskimo's Eskape series of flip-style towable ice houses, you'll have a shelter to help you do just that. Eskape shelters come with many conveniences and are specifically designed for towing and added mobility. Plus, their durable, heavy-duty design ensures the wintry elements won't spoil your day on the ice.

All weights, specifications and features are approximate and are subject to change without notice. Due to continuous product improvements, product images may not be exact.

ESKAPE 350

SPECIFICATIONS	69163
Capacity	3-person
Set-Up (A)	96 in x 77 in
Height (B)	77 in
Fishable Area (D)	30.7 sq ft
Weight	152 lbs
Warranty	1-year limited

HEAVY-DUTY

The heavy-duty fabric of the Eskape shelter series and its extra-long skirt withstand abuse while protecting you from the cold.

AIR ESKAPE

Adjustable vents make it easy to control the in-shelter atmosphere.

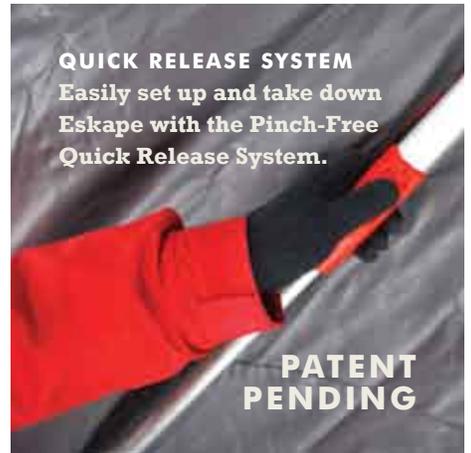

SKYLIGHTS

Add natural light to your interior.

QUICK RELEASE SYSTEM

Easily set up and take down Eskape with the Pinch-Free Quick Release System.

PATENT PENDING

EXIT EASIER

With three separate doors, the Eskape 350 allows you to easily come and go without tripping over your fishing equipment.

TOW HITCH ACCESS PANEL

Leave your shelter connected to your tow vehicle and keep drafts out.

ABOVE

Eskape adds strength without adding weight by utilizing large-diameter aluminum poles.

BELOW

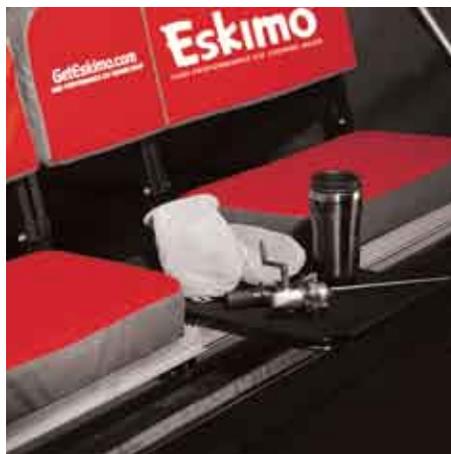

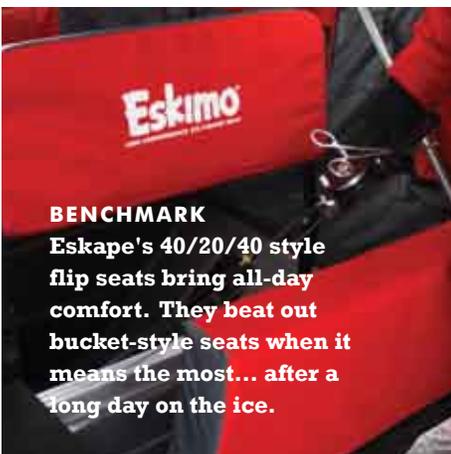

Get a helping hand with the Eskape's sliding rod holder.

The Eskape is full of useful features like the underseat storage tray for your fishing gear.

SATISFIED CUSTOMERS

I purchased the Eskimo Eskape 300 sight unseen. I have had an Eskimo power ice auger for 15 years with no problems, so I expected good things. Eskimo did not disappoint. Quality in every way. The house is large, easy to handle and heavy-duty. I can set it up by myself in under one minute. The key to making this house so enjoyable is the comfort. The seating and space are perfect. I would recommend this ice house/sled to anyone.

Jim Laursen
Nebraska

I love my Eskimo!

Wes Chafa
Montana

I love my M43Q8! It starts with the first pull every time. It's not too heavy and is very powerful. I'm bragging to all my friends.

Michael O'Brien
Wisconsin

My good buddy is in a wheel chair and can use my Stingray power ice auger easily.

Daniel Stevens
Ontario, Canada

↗ I am 75 years old, weigh 115 lbs., and have C.O.P.D., but drilling holes is a breeze with this Eskimo!

Eroll Shain Sr.
Maine

In my opinion, my Eskimo Quickfish 3 is the best portable fish house on the market!

Justin Nagel
Minnesota

For a fundraising event, the White Bear Archery Club recently drilled the holes for the 2010 Saint Paul Winter Carnival Ice Fishing Contest using augers supplied by Eskimo. I was just amazed at the performance of these machines. We started at about 5:30 a.m. assembling and fueling up the new Shark Z71 augers. At about 6:30 we fired up the augers. Every one of them started easily in just a couple of pulls. What really amazed me is how these engines would idle. Some of these augers sat on the ice running for 10 to 15 minutes, just idling without stalling, waiting to get to work. Then the fun began. As we started drilling holes, I could not believe the power of the auger I was using put out. These machines were cutting through ice over 20" thick in no time. By about 9:00 a.m. we had finished putting in about 6,500 holes in the lake for the fishing contest. What really impressed me was the dependability of these machines. They all performed excellent, from the first hole to the last. I personally own an auger manufactured by the competition, but after this experience with these Eskimo ice augers, I'm looking to trading it in to get myself a Shark Z71.
