

# NEW PRODUCTS FROM OWNER HOOKS

**Beast™ Hooks** with TwistLOCK® designed for weedless-style rigging of lar-tubes and creature baits. With its TwistLOCK® (patent pending) attached to the hook by inserting the pin in the center of the screwed onto the TwistLOCK® coil. Size springs are matched to hook size to maximize holding power. Quick-drop shank below eye allows for rigging fat-headed baits, and maximum gap allows for improved hook sets because of better bait clearance. The non-movable weight attached (5130W) not only helps to sink or swim a rigged bait down into the strike zone, but because the weight is positioned so low on the shank, it provides a keel effect. As a result, when rigging large swimbaits weedless-style, plastics swim naturally (as opposed to rolling or flipping where weights are inserted inside soft baits). Ideal for both fresh and saltwater fishing, features include a TwistLOCK® Centering-Pin Spring (CPS - patent pending) attached to the hook eye, maximum gap, a XXX-strong forged shank, Super Needle Point, and black chrome finish.

Centering-Pin Spring (CPS) are de-ger plastics like big swimbaits, flukes, LOCK® Centering-Pin Spring (CPS - eye, baits can be permanently secured nose of a soft plastic, which can then be spring to rig perfect everytime! Different

**Now Available**

## STINGER HARNESS RIG

This is the ultimate stinger harness rig, designed for use with both soft plastic and natural baits to eliminate short strikes and improve hookup ratio. Available in two models, each rig features a length of super tough 80-lb. braided line, terminating at one end with a large loop and at the other with our EZ-Snap (dual interlocking), to which is attached an Owner

ST-36 Treble hook. Simply pass the loop through the eye of any swimbait hook, then pass the treble through the loop and cinch the rig down against the eye for either a top side or under side rigging of the bait. The snap allows for a convenient change of treble hook sizes. Shown above is the 5130W Weighted Beast™ Hook which is the perfect hook to pair up with the Stinger Harness Rig.

**Now Available**

## WACKY HOOKS

Wacky Hooks, available with or without a weed-guard, are the perfect hook for down-shotting and drop-shotting natural baits and soft plastics for suspended bass and panfish. The hook gap's sharp-angle bend serves as a saddle that encourages a worm rigged at the middle to seek an optimum position for an enticing horizontal presentation, which makes this an ideal hook for wacky worming. Models with a Flex Nylon weedless guard are the choice for worming in heavy cover. Both models feature a Super Needle Point and camo green finish.

**Now Available**

## TOURNAMENT MUTU™ LIGHT

The Tournament Mutu Light is perfect for rigging smaller baits. Meets accepted billfish tournament specifications with its in-line, non-offset hook point that is angled 90° to the light wire shank. Also complies with gulf coast reef fishing regulations. Features include a forged hangnail point and a black chrome finish.

**Now Available**

## GRANDER TOURNAMENT MARLIN CIRCLE

There is no circle hook stronger than Owner's new Grander Tournament Marlin Hook. Designed to meet accepted billfish tournament specifications with its in-line, non-offset hook point that is angled 90° to the super strong shank that will handle 1,000 pound Black and Blue Marlin. Features a forged hangnail point and a black chrome finish.

**Now Available**

## CENTERING PIN SPRING (CPS)

As featured on the Owner Twistlock hooks, these interchangeable stainless steel Centering Pin Springs (CPS - Patent Pending) attach to hook eyes, and allow any soft plastic bait to be "permanently" secured by inserting the pin in the center of the bait's nose and then screwing the bait onto the coil spring to rig perfect everytime! The CPS has far superior holding power compared with barbed stick-pin holders. Three sizes allow for maximizing holding strength for any size bait.

**Now Available**

## ULTRAHEAD - SHAKY TYPE™

The Shaky Head features Owner's TwistLOCK™ "Centering-Pin-Spring" (CPS - Patent Pending) molded into the lead. Small diameter finesse baits can be "permanently" secured by inserting the pin in the center of the nose of the soft plastic, which can then be twisted (Screwed) onto the TwistLOCK™ coil spring to rig perfectly everytime! Ideal for weedless-style Texas Rig'n, and on the bottom, contoured jig head "rocks" forward to present baits in a tantalizing nose-down position. Round bend, light wire hook has a 45° cross eye, Super Needle Point and a black chrome finish. Head colors available include Natural, Green Pumpkin, and Brown,

**Available now.**

## 90° 2X JIG HOOK

Round bend, and 2X-strong forged shank. Heavier wire version of our 5313 for molding varying designs of jigheads on stronger hooks. Features included a 90° eye-bend, short shank, curved in point, and a corrosion resistant black chrome finish.

**Available now.**

## TWISTLOCK™ 3X WEIGHTED w/ CENTERING PIN

This Weighted Twistlock™ hook employs the same hook as the 5132 Twistlock™, but also features a on-movable weight attached to the shank. Designed for both fresh and saltwater fishing. The hook's added eight helps to sink or "swim" the bait into the strike zone. With its Twistlock™ "Centering-Pin-Spring" (CPS – patent pending), baits can be "permanently" secured by inserting the pin in the center of a soft plastic, which can then be screwed on the Twistlock™ coil spring to rig perfectly everytime! Ideal for weedless style fishing without having to add a separate weight. Great for skipping or pitching into deep cover. "Open" gap

allows for more positive hook sets. Features include a 30° eye-bend, XXX-strong forged shank, Super Needle Point, and black chrome finish.

**Now Available**

### GORILLA LIGHT

Gorilla Light bait hooks are a lighter version of our Gorilla hooks for a more natural presentation. Use for rigging smaller live baits like anchovies, or natural baits for snappers and sheepshead. Ideal when nose-hooking baitfish for king mackerel rigs. Gorilla Lights are a short shank all-purpose bait hook. Features include a strong forged shank, Super Needle Point, and a corrosion resistant black chrome finish.

**Now Available**

### TOURNAMENT MUTU™

The Tournament Mutu Circle Hook was designed to meet accepted billfish “tournament” specifications with its in-line, non-offset hook point that is angled 90° to the XX-strong shank. A versatile hook for presenting larger baits to big gamefish, and ideal for catch-and-release fishing. Features included a forged “hangnail” point and a corrosion-resistant black chrome finish.

**Now Available**

### STINGER-56 TREBLES™

Stinger® 56 Trebles are 3X-Strong with a corrosion-resistant black chrome finish and are perfect replacement hooks for improving the hooking power of your saltwater plugs, spoons and die-cast jigs. Lethal when used as “stingers” on wire rigs for King Mackerel or Kingfish. Designed with wide gaps and strength in mind. Features a short shank, forged bends, and three Super Needle Points.

**Now Available**

### TREBLE DANCING STINGER

The latest addition to our Dancing Stinger series. Available in 3 sizes with wire leaders and barrel swivels. Perfect for toothy fish like wahoo and kingfish that tend to slash at baits and cut leaders.

**Now Available**

### HYPER BALL BEARING SWIVELS

For your terminal tackle needs, choose from Owner’s High-Performance Hyper Ball Bearing Swivels and Hyper Ball Bearing Swivels with Coastlock Snaps. Both swivels feature super-strong stainless steel construction with a corrosion resistant black chrome finish. Ultra smooth swivel action offers no-twist protection when trolling and for big game leader connections. The Dual Ringed Swivel was designed to be used with the Dancing Stinger System by substituting a swivel for the solid ring.
