**MASTER BRAID® - "STIFF SUPER BRAID"**

With almost 100 years of braiding experience and technology, Cortland Line is proud to offer the next generation of "Premium Super Braid" - Master Braid. A premium super braid constructed using high tech Spectra fibers and all the best features of Cortland's legendary Spectron braided line, but with Cortland's unique "Fiber Tech"™ process.

Master Braid is constructed in a way that makes it rounder, which means less twist, greater accuracy, longer casts and extended life. Cortland's proprietary "Fiber Tech"™ process dramatically increases the braids durability along with bonding the color and finish into the fibers of the braid eliminating fading or flaking of the color and stiffening agent. With only 4% stretch, small diameter pound/test ratio and a unique hydrophobic coating that slices through the water and comes back dry, this new Master Braid delivers greatly enhanced fishing qualities and performance. Master Braid is very easy to use and works equally well on both spinning and conventional reels.

**STIFF SUPER BRAID - Targeted Elongation 4%**

**Master Braid Green, Yellow, Bronzeback Brown, White**
