

JIG N POP BLANKS

BLACK HOLE CAPE COD SPECIAL JIGGING BLANKS 5'8" (250G, 350G, 450G)

Unique Features:

- Shows extraordinary strength and power due to use of cutting-edge Nano Technology.
- Fully Parabolic Action
- Although the rod shows tremendous power for the rating, the action of the rod is pretty soft so that it gives less burden on your back while fighting.
- Light weight
- Look of the blank is unique due to special wrapping of carbon material.

BLACK HOLE CCS 250G BLANK

- "Enormous strength and durability for 250g blank, probably one of the strongest blank ever introduced."
- Recommended for Tuna up to 50-10lb though over 220lb Tuna was caught with this rod.
- Recommended for 15-20lb drag though it can take much heavier drag.

BLACK HOLE CCS 350G BLANK

- Good for Tuna up to 100-200lb., but can handle heavier Tuna if needed.
- Also great for any size Amberjack!
- Recommended for 20-30lb drag though it can take much heavier drag.

BLACK HOLE CCS 450G BLANK

- Good for Tuna up to 100-200lb, but it can handle heavier if needed.
- 773lb giant was brought to the boat after fighting for 4.5 hours with this rod.
- Recommended for 25-30lb. drag though it can take much heavier drag.

BLACK HOLE CAPE COD SPECIAL COW SPECIAL BLANK

- Super strong and durable due to use of Nano technology
- Specially designed for big cow (Yellowfin Tuna) in 100-300lb. range on long boats
- Primarily developed for using the rail on long range boats, but also can be used for jigging and popping rod for monster Yellowfin or Bluefin Tuna in the 200-300lb range.
- Tip is light enough to throw the light baits or lures, but mid-section of the blank has enormous backbone
- Super light weight (12 oz) for its class
